

**LETTER OF SOLIDARITY
FOR AFGHANISTAN PEOPLE**

27/08/2021

The Jai Jagat, a nonviolent global peace campaign welcomes the support of all those who are assisting the civilians of Afghanistan, protecting women, children, and vulnerable communities from harm's way, and in assisting those that are able to leave the country.

We thank countries in the region that are opening their borders to the flood of people, and those western countries for accepting large numbers of Afghan emigrants. At the same time we are aware of many who have been left behind, the high degree of hunger, and some of those who feel that their life is threatened by the incoming government due to its religious extremism and its unjust treatment of women.

Thus, we endorse the call to the entire international community to use all possible resources to cease the war and, especially, to respect and defend the human rights of the women and girls of Afghanistan, which have been systematically violated. At the same time we entreat all humanitarian agencies to provide immediate aid.

We call on all friends associated with Jai Jagat to support women and children in Afghanistan so they can continue to contribute to the governance of the society and its economy, bringing their strengths, skills, and knowledge into all aspects of society. Without the legitimate and full participation of women, there is not and will not be a humane society.
